4nannies.com Includes Nanny Background Checks Provides Peace of Mind to Family Recruiting Efforts

(Potomac Falls, VA) Families searching for a nanny have turned to 4nannies.com for help since 1998. 4nannies.com empowers parents to locate the best possible nanny for their family with a variety of online forms, tools and assessment vehicles. Effective immediately, and in response to family concerns about the backgrounds of nanny candidates, 4nannies.com will include a criminal and Social Security Number background check in every family member subscription.

"Nannies are left in largely unsupervised settings with young children." Reports 4nannies.com's Kathleen Webb. "4nannies.com is committed to helping families make wise hiring decisions and felt it imperative to provide families access to complete background information on the candidate they select to hire." Webb acknowledges that providing this information does raise the cost of recruiting, but insists that this is not an area where responsible families want to cut corners.

4nannies.com is an established web service offering families a proven solution. They have assisted nearly 1000 families and registered more than 10,000 nanny candidates since spring 1998. The 4nannies.com solution puts families, not expensive nanny agencies, in control of their families' nanny recruiting efforts.

Traditionally, families recruiting a nanny have relied on newspaper advertisement and nanny recruiting agencies to locate staff. These solutions are time consuming, often very expensive, and have not yielded the results families demand. The 4nannies.com solution puts complete resumes of hundreds of available candidates at the family's fingertips 24 hours a day, seven days a week.

4nannies.com, with the addition of nanny background checks, offers the ease of use, results, and peace of mind families have been looking for.
